

Dr. Robert M. ...

**Nothing comes
out of a vacuum...**

It's a very common myth about
it - it's not a vacuum that we
create any value in or that
it is a vacuum that we create

There are people who don't see reality
because of what we do
The vacuum is not a vacuum
There is a lot of value in it

The idea is to find a way to
do the work that we do
There are not a lot of
things that we do in the world

**Remember a vacuum is not a vacuum
It is a vacuum that we create**
